Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 11-12 and 20 are rejected under 35 U.S.C. 103(a) as being unpatentable over KR 1984-0000974 in view of Hong (US 5,674,425). KR 1984-0000974 discloses a microwave oven (1) comprising a cooking cavity (Figure 1), a door (8) and an air duct (4) including air passing holes (6) at an upper plane of the cavity. However, KR 1984-0000974 does not disclose an air curtain forming unit. Hong discloses a convection microwave oven having a hot air curtain forming unit (col. 2, lines 53-59). It would have been obvious to one ordinary skill in the art at the time the invention was made to utilize in KR 1984-0000974 an air curtain forming unit as taught by Hong in order to prevent a door screen from being covered with dew.
3. Claims 1-10 and 17-19 are allowed.
4. Claims 13-16 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
5. The following is a statement of reasons for the indication of allowable subject matter: the prior art of record does not show or suggest an upper duct having a main body mounted in the cavity, a duct fixing member formed on a side of the main body

and fixed on a wall of the cavity, and an inclined portion extending from an end of the main body and inclined at a predetermined angle as recited in claim 1.
